1992 – 1997

Liceo Scientifico “Ignazio Vian”, Bracciano

High School Diploma “Maturità Scientifica” (gradesi 60/60)

1997 – 2003

“Università Cattolica del Sacro Cuore” Rome

Thesis titled in experimental character: Body composition and regulation of energy metabolism in patients with celiac disease before and after gluten-free diet: the role of leptin and ghrelin.

Degree in Medicine and Surgery (110/110 cum laude)

2003

“Università Cattolica del Sacro Cuore” Rome

Attainment of the suitability to practice medicine and surgery (vote points 110/110)

2002

“Università Cattolica del Sacro Cuore” Rome

Scholarship for the year 2002-2003 in order to achieve, within the regular session, all of the exams required by the law of the Degree in Medicine and Surgery

2003

“Università Cattolica del Sacro Cuore” Rome

Scholarship for discussion before the summer session in July 2003, Thesis Degree in Medicine and Surgery

2004

SIMI

Young Researchers Award: S. Farnetti., E. Capristo, M. Certo, G., L. Abenavoli, L. Leggio, N. MalandrinoG De Lorenzi, G. Mingrone, G. Gasbarrini. Reduced plasma ghrelin concentration in celiac disease after gluten-free diet treatment

2008

“Università Cattolica del Sacro Cuore” Rome

**Thesis titled in experimental character: Effect of the use of extra virgin olive oil, unaltered and fried on glucose metabolism in insulin-resistant subjects
Degree in Internal Medicine (grade 50/50 cum laude)**

2008

“Università Cattolica del Sacro Cuore” Rome

Ph.D. in Pathophysiology of Nutrition and Metabolism

2014 1 April

DRI (Diabetes Research Institute)

Federation

Director, DRI Federation Wellness and Nutrition Program

Director, Eutrophia Center Rome, Italy

ADDITIONAL INFORMATION
CHARITABLE ACTIVITY

2000-2001: MIF at the Institute of Medical Pathology headed by Prof. Chiar.mo Citizens, Laboratory of Molecular Oncology, Biological Institutes, Catholic University of the Sacred Heart, Rome office.

2001-2002: MIF in the Division of Gastroenterology, directed by Prof. Antonio Gasbarrini, Department of Internal Medicine, Catholic University of the Sacred Heart, Rome office.

2002-2003: MIF in the Division of Endocrinology and Metabolic Diseases, led by Prof. Aldo V. Greco, Institute of Internal Medicine, Catholic University of the Sacred Heart, Rome office.

2003-2008: MIF at the Institute of Internal Medicine, Metabolic Diseases Division, headed by Prof. Raffaele Landolfi Chiar.mo, Catholic University of the Sacred Heart, Rome office.

2003-2008: Working at the Service of Day-Hospital of Endocrinology and Metabolism Metabolic Diseases, Catholic University of the Sacred Heart, Rome office.

COVERED TOPICS

KEY SCIENTIFIC TOPICS COVERED

- Functional Metabolic Approach to nutrition : food use and their associations in the various functional and organic diseases on the basis of correlations : food - body - cell - Hormones – metabolism
- Studies of the kinetics and dynamics of the main energy substrates in parenteral and enteral nutrition, particularly with regard to glucose, saturated fatty acids , monounsaturated (MUFA) and polyunsaturated (PUFA), medium chain (MCT), and the different cooking modes of fat.
- Kinetic studies of essential fatty acids : therapeutic implications of fatty acids Omega 6 and Omega 3 in chronic diseases and intestinal Crohn's disease, celiac disease and ulcerative colitis, acute alcohol in pathology, in NAFLD and NASH, autoimmune thyroiditis .
- Assessment of nutritional status in patients with: Crohn's disease, ulcerative colitis, celiac disease, food allergies, NAFLD and NASH, obesity, anorexia nervosa.
- Techniques for measuring body composition (anthropometry, skinfold thickness, bioelectrical impedance, DXA, isotope dilution, hydrostatic weighing, adiabatic chamber, computed tomography, magnetic resonance imaging, etc.).
- Principles and techniques of indirect calorimetry: assessment of energy expenditure and the use of different substrates, using calorimeters and portable metabolic chamber
- Diabetes mellitus type 2 and dyslipidemia.
- Obesity: pathophysiology and therapeutic approach. Surgical treatment of obesity: implications for clinical and nutritional follow-up.
- Assessment of pathophysiological levels of anxiety and depression in patients with : irritable bowel syndrome, Crohn's disease, ulcerative colitis, celiac disease, food allergies

PUBLICATIONS

- Pathophysiology of acute and chronic damage from alcohol. Treating alcohol dependence : pharmacological approaches - Metabolic and nutritional aspects in alcoholic patients.
